

July 2011

Dear Jessica,

Firstly, I would just like to say many thanks for all the support and sound advice you have given us over the last 2 years with regards to advertising and growing our business with Yachting Pages.

2011 is proving to be our best year yet, with a lot more new business, much of this we can attribute to our advertising with Yachting Pages. Already, we are booking in repeat business for the winter. I am confident in the knowledge that Yachting Pages is widely used across the board as an essential referencing tool.

I would highly recommend Yachting Pages to all companies who are just starting up or wanting to expand within the yachting industry.

Best wishes,

Wayne Parker
