2011

Dear Jess,

The Captain of M/Y Al Duhail and his management office from Monaco couldn't find what they needed on the internet. They looked in Yachting Pages for a specialist in interior refinishing and contacted us.

The yacht is located in the Seychelles and they want us to come from Mallorca to be there for about 10 days to do some repairs. This will be a logistical challenge because we have to fly in all our equipment and the material because they couldn't find what they needed there.

I am so pleased they found us in Yachting Pages!
